

EVELYN SAT WITH SWOLLEN EYES BESIDE HARRY

AND SHOWED SIGNS OF MUCH WEeping IN THE COURT ROOM TODAY.

COMMISSION HOLDS SESSIONS

But No Public Announcement of the Plans Has Been Made as to Procedure.

New York, March 27.—The Thaw lunacy commission held two sessions today. One this morning was with Justice Fitzgerald and was preliminary to the starting of the lunacy hearing. Justice Fitzgerald excused the jury until Monday. If the commission has not completed its work at that time, the jury will again be excused. Evelyn was in court beside her husband. Her cheeks and eyes were swollen, showing signs of much weeping. The commission made no public announcement of plans for the hearing and the members refused to talk.

In announcing his decision to appoint a commission, Justice Fitzgerald issued a written memorandum which he had prepared for the minutes of the court. He based his decision on the conflict of affidavits as presented by the opposing sides, saying they were too diametrically at odds to permit of a decision other than in favor of an impartial inquiry.

Thaw sent out a statement from the Tombs in which he said: "Everything is perfectly satisfactory to me. I am sure I will be able to satisfy the commission that I am sane at the present time. Anything Justice Fitzgerald does is all right. He has always acted in a fair and impartial manner."

Lawyers to Be Present.

The Thaw lunacy commission will be attended by District Attorney Jerome. The lawyers for the defendant will also be present, and the commission may direct and compel the attendance of any witnesses it may desire. It is probable that Thaw will be asked first of all to submit to a rigid physical examination. Having undergone several of these since his incarceration, he is somewhat nervous on this subject, but it was said by his counsel that he would do anything in his power to aid the commission with its work and that he hoped for an early opinion as to his sanity.

Thaw's lawyers and the defendant himself were downcast when they were first made acquainted with Justice Fitzgerald's decision, but all were manifestly pleased when the later announcement as to the personnel of the commission of lunacy was made. Mr. Delmas in particular declared that Justice Fitzgerald could hardly have selected a more generally satisfactory commission, one whose decision would command more confidence and respect. District Attorney Jerome seemed pleased with the result of the dramatic appeal he made last week to the conscience of the court, asking an interruption of the trial on the ground that the defendant was in such a mental state that he could not intelligently confer with and advise his counsel and did not understand the nature of the proceedings against him.

The Thaw jury was ordered on last Friday to report before Justice Fitzgerald this morning at 10:30 o'clock. At that hour there was a brief court procedure, the jury being excused indefinitely.

STANDARD OIL

Wins Important Victory Over European Competitors—Forces Them to Terms.

London, March 27.—The Standard Oil company has won an important victory over European competitors and has forced the combination formed by German, Roumanian, Russian, Dutch and British capitalists to come to an agreement on its own terms. The Standard has secured control of many important oil tank installations in Amsterdam, Antwerp and Rotterdam.

FRIENDS OF TAFT ACCEPT CHALLENGE

No Doubt About Position of Roosevelt—Senator Foraker Candidate for Presidency.

Washington, March 27.—Friends of Secretary Taft cheerfully accept Senator Foraker's challenge, given to the press late last night. Editor Taft, brother of the war secretary, made his formal announcement merely to smoke out Foraker. The issue is now clear. Foraker is a candidate for the presidency. He wants the endorse-

ment. He wants it this summer in order to kill off the Taft boom. If Ohio declares for Taft, he stands a good chance of the nomination. If Foraker is endorsed by Ohio, he will still have the opposition of Roosevelt and Republicans of other states to encounter. Roosevelt is for Taft. There is no doubt about the President's position. He is not taking an aggressive position, of course, but is doing all possible to point to Taft as the choice. Prominent Ohio politicians not identified with the machine are to be called to Washington to tell of Ohio's sentiment.

INCREASES THEIR WAGES

Lakewood, N. J., March 27.—John D. Rockefeller has increased the wages of the laborers on his country estate here 15 cents a day. They had received \$1.50 a day.

U. S. EMBASSY WILL INSPECT RAILROAD

Constantinople, March 27.—Acting under direct instructions from Washington, P. A. Jay, secretary of the American embassy here will leave here shortly for Bagdad, Asiatic Turkey, to inspect the Bagdad railway designed to connect the Mediterranean with the Persian gulf. Secretary Jay will inspect the work which Germany is doing, and make a detailed report to Secretary Root in regard to Germany's political activity.

LIVING HAPPILY

Are Wilson Misener and Wife, a Reconciliation Having Taken Place in New York.

New York, March 27.—Wilson Misener and wife, formerly Mrs. Charles Yerkes, have become reconciled and are living happily together in the Yerkes mansion. In celebration of the reconciliation, Mrs. Yerkes gave a surprise party and dinner. The "surprise" was Mr. Misener at the head of the table.

Prisoner Not Sane.

Ponca, Neb., March 27.—The trial of Frank Brink for the murder of his sweetheart, Bessie Newton, came to a sudden and unexpected termination. Five physicians made an examination as to the mental condition of Brink, and unanimously agreed that he is suffering from melancholic insanity.

Drew Pistol, and Threatened to Kill the Woman When They Saw Her Approach.

Dover, Del., March 27.—Detectives are hot on the trail of the two men who were seen near Kitts Hammock late yesterday by Miss Killon, a school teacher, and who it is believed are kidnapers of little Horace Marvin. It is thought the men were approaching the Marvin farm to deal with the boy's father. The men were talking of the kidnapping when Miss Killon approached. They drew pistols and made her promise not to tell what she had heard.

BODY RECOVERED.

The body of Edward Harding, who was drowned at Lock 41, Pa., five months ago, has been recovered and has been taken from that place to his late home in Berry, Ky., for interment. The body was accompanied by Mrs. Harding the bereaved widow.

For Election in Philippines.

Washington, March 27.—The Philippine commission has been instructed by cable to inform President Roosevelt whether a condition of general and complete peace, with recognition of the authority of the United States, has continued in all that portion of the archipelago not inhabited by Moros or other non-Christian tribes for the past two years. If the answer is in the affirmative the president will immediately direct the commission to call a general election on July 30 next for the choice of delegates to the first popular assembly of the people of the Philippine Islands.

MR. HOOPER APPOINTED.

Columbus, O., March 27.—O. C. Hooper, associate editor of the Dispatch, has been appointed by Mayor Badger as a member of the Board of Trustees of the Columbus Carnegie Library to take the place of Judge Sater who resigned when he was appointed federal judge by the President.

Heads of passenger departments of the railroads entering Indiana and Ohio, decided not only to continue Sunday excursions this summer, but make rates lower than last year's schedule.

NATIVES DYING BY THE THOUSANDS IN FAMINE DISTRICT

(Bulletin.)

Nankina, China, March 27.—Tales of cannibalism continue to come from the famine district. At HuaAn a child was killed by a cart in the streets. The body was seized and carried away. The authorities searched for it and found that it had been cut up and eaten. Natives are dying by thousands in the interior.

COMMANDER PEARY IS TO TRY AGAIN TO REACH POLE

North Pole Will Ultimately Be Reached and I Hope to Be the Man, Says He.

Dayton, March 27.—Commander Peary will make another dash for the north pole. Negotiations are now under way to finance the expedition. "The ambition of my life," said he, "is to reach the pole and I do not believe I shall desist until I have done so. The pole will ultimately be reached and I hope to be the man." Peary will go to West Virginia to see Senator Elkins about funds.

ANOTHER SERIOUS NAVAL ACCIDENT

Cherbourg, France, March 27.—Another serious naval accident has occurred. The boiler on the torpedo boat at the arsenal exploded, wounding many people.

Richard Mansfield Ill.

Scranton, Pa., March 27.—Suffering from nervous indigestion, aggravated by possible grip, Richard Mansfield, under advice of a local physician who was called to attend him in his private car here, instructed his managers to cancel all the remainder of the season's engagements. He returns to New York at once.

Work of Lightning.

Chicago, March 26.—During a severe electrical and rain storm which passed over the city, John Mueller, an employe of a lumber concern, was struck by lightning and killed. Nine fires were caused by bolts of lightning inside of 20 minutes after the storm began. The rainfall, which at times was accompanied by hail, was very heavy.

Farmer Struck.

Lafayette, Ind., March 27.—The most severe electrical storm of the year passed over Lafayette, and the rain fell in torrents. The lightning did much damage to telephone and telegraph wires. Parvin Runyan, 70, a farmer residing nine miles south of this city, was struck by lightning and instantly killed.

Woman Lands Three Burglars.

Discussed Railroad Matters.

Washington, March 27.—President Roosevelt discussed various features of the railroad situation at a conference with a number of his official advisers at the White House. Those present admitted the conference had to do with railroad matters. When the plan of Jacob H. Schiff of New York for a conference between the railroads and the government for the purpose of allaying the fear of investors was called to the attention of the president, he declined to discuss the matter in any way.

Dick Elected President.

Columbia, S. C., March 27.—The National Guard association of the United States, the name by which the Interstate National Guard association is to be known in the future, concluded its ninth annual convention here. Boston was selected as the next annual meeting place. Senator Dick of Ohio was re-elected president.

Child Labor Bill.

Lincoln, Neb., March 27.—The senate passed the house child labor bill, amending it so as to exempt from its provisions boys who work on farms and other boys between the ages of 14 and 15 years who have an eighth-grade school certificate. The house acquiesced in the amendments and the bill goes to the governor. The bill is very drastic, making it unlawful for children under 16 to be employed at night and for those under 14 to work at all, with the above exceptions.

WESTERN ROAD SITUATION ACUTE

Chicago, March 27.—All negotiations between the railway managers and representatives of the unions ceased this afternoon at the end of the joint session. The union delegates will hold a session this afternoon. The delegates are instructed by a referendum vote to call a strike if they deem best.

"PENNSY" TRAIN WAS WRECKED THIS MORNING

IN SPITE OF REPEATED TROUBLE ON THAT RAILROAD SYSTEM

AND AT THE SAME POINT

Chicago Limited Was Saved Because It Was Over Twenty Minutes Behind Time.

Pittsburg, Pa., March 27.—In spite of the fact that within the past two months, there have been serious wrecks on the Pennsylvania railroad at Wilmerding, Mineral Point and Stewart Station, a fourth wreck and an attempt at wrecking is recorded this morning. The wreck and attempt at wrecking occurred a short distance east of Turtle Creek, where on account of defective rails, the Keystone express had its engine, two mail cars, a combination smoking and baggage car, derailed, permitting its three sleeping cars to remain on the tracks. Had not the Chicago Limited been over 20 minutes late in its west-bound schedule, it too would doubtless have been wrecked, worse, perhaps, than any of the others, as not only were defects found in the tracks on which it was running, but it would inevitably have collided with the wreck of the Keystone express.

An early report stated that a number of passengers were badly bruised. Later statements are that no one suffered injury beyond fright and shock from their experience. The tracks were blocked several hours and there was a big delay in the early morning traffic in that vicinity.

INDICTMENTS RETURNED.

New York, March 27.—Three indictments were returned against the New York Central railroad and its officers today as a result of the wreck of the Brewster express, February 16, when 24 were killed. The indictments charge manslaughter in the second degree. The indicted officials are Vice President Albert H. Smith and Superintendent Ira A. McCormick. The third indictment is against the railroad as a corporation.

Six Thousand to Strike.

San Francisco, March 27.—All the union men affiliated with the iron trades council voted to strike May 1. Over 6,000 men in this city are involved. They demand an eight-hour day. The strike will affect the Union iron works and other big industries of the city. The strike will affect not only the big plants named above, but all the machine, copper and boiler shops in this city and all the construction work which requires the use of iron. It is anticipated that the small shops will concede the demands, but the big three may fight. If they resolve to do so the complications will be serious, as the last strike lasted for 10 months.

DANNY DAVIS HAS SENT IN CONTRACT

CRACK NEWARK SHORTSTOP HAS BEEN HOLDING OUT FOR INCREASE.

Written is Now the Only Member of the Old Guard Who is Out in the Cold.

Secretary W. B. Hopkins late Tuesday afternoon received the signed contract of Shortstop Danny Davis, the king of the short fielders in the O. P. league last season. Davis was holding out on account of some minor differences regarding his salary figures but finally decided to send in his pink paper.

As a fielder, there are none better than Danny Davis, but it is earnestly hoped that he will take a brace in his hitting. If he would hit 260 or better, nothing in the league could touch him. He batted last year at a .222 clip, his average falling off toward the end of the season. His fielding was right up among the top notchers, and the fact that he had more chances in the number of games played than any other man shows his ability as a fielder.

HELLER SIGNED

Lancaster, O., March 27—Fat Freddie Heller came down from Columbus and signed a contract to play in the outfield this season. Since the arrival of the robin and bluebird, that railroad job in Columbus has lost its charms and it's back to the old love with Freddie. Manager Breen now has 14 men under contract, and Frank Locke's contract is expected this week. The work of preparing the park for play is well under way and the pitching staff will report here the first of April. Regular practice will begin about April 10.

KING COMPANY IN EASTERN OHIO

FORMER CITY LEAGUE TEAM JOINS SEMI-PROFESSIONAL LEAGUE FOR SEASON.

Manager Fox Attended a Meeting at Coshocton Sunday and Says He is Ready.

In speaking of a meeting of the Eastern Ohio league held at Coshocton Sunday, the Coshocton Age says: Manager F. J. Fox of Newark was at the meeting for the first time, he being unable to attend those previously held.

He was ready for business and reported his team already signed up. They will play at Idlewild park, and play Sunday ball. He will have one of the fastest amateur teams in the state, and will probably play an exhibition game with the Newark O. P. team before the E. O. season opens.

The Newark team does not fear the competition of the O. P. team, but the dates will be arranged so as not to conflict. The O. P. will have to hustle to keep up with the E. O. team as the amateurs have many followers in that city, and put up the goods.

The baseball men in that league are taking a very optimistic view of the situation. It is to be hoped that the venture is a success, but just how the teams are going to be made paying propositions can not be seen from here. There is a heavy expense attached to the running of a baseball item over the country. In the City league last summer where an admission fee was charged, but a small amount was realized for each team.

The Eastern Ohio league will not be enough faster than the City league to make a big difference in the attendance.

MANAGER ROBERT BERRYHILL IS MINSTREL MAN

Manager Robert E. Berryhill, of the Newark club, is an actor as well as a baseball manager. He can sing, too, when the occasion requires. At least he got an excellent press notice from his home paper, the Lebanon Daily Reporter, for his turn in the

Elks' minstrel. The Reporter says:

Bob Berryhill if he should never appear before the public again—but he'll be there—will always be remembered as the man who sang, "He Walked Right in and Turned Around and Walked Right Out Again." Berry never gets stage fright, and he put all the ginger of which he is capable into his performance last night and scored on a sensational hit.

Bob is an Elk and took part in the minstrel performance. He was one of the end men and the Lebanon paper speaks highly of his ability as a minstrel man.

GREAT WORK AT WEHRLE PARK

THE GROUNDKEEPER HAS MADE VAST IMPROVEMENT IN OUTFIELD.

Grandstand is Being Enlarged and Other Numerous Changes Are Being Made

Newark fans who have not seen Wehrle park since the spring work has commenced, would be surprised to note the changes made in the grounds. Nearly two wagon loads of small and large stones were taken off the field and the diamond is now in better shape than it was at any time last season.

Tile is being unloaded in the outfield and these will be placed in the ground as soon as possible. There is a bad hole in the left field, just outside the foul line and under the score board which will be closed up before the practice commences. This will be drained to a ditch beyond the park.

Instead of tearing out the end of the grand stand and extending it towards the third base bleachers, the directors decided to build back towards the gate. It has been extended about 12 feet toward the entrances, the tiers of seats being dropped to a more gentle slant to increase the number of seats.

It is still undecided as to what sort of an entrance to the stand will be made. It is the general opinion that many valuable seats were lost in the wide entrance in the center of the

stand as it was built last season.

A general entrance will probably be made from the center on a level with the top row of seats. If this is done a platform ten or twelve feet wide will be constructed with steps dropping east and west. Exits will no doubt be made at each end of the grand stand to allow the seats to be emptied more rapidly at the end of the game. The work is being pushed as rapidly as possible.

SWISHER'S BARN BADLY DAMAGED

Fire Causes a Loss of About \$1200, Which is Covered by Insurance.

An alarm of fire about 9:30 o'clock Tuesday night called the North End company and the truck from the Central company to the fine barn belonging to Mr. Harry Swisher, rear of his residence, 443 Hudson avenue. When the firemen arrived on the scene the flames had gained considerable headway in the interior of the barn and it looked as though the structure was doomed. The fire, which was confined principally to the hay, was quickly extinguished, but not before the barn had been badly scorched and a considerable amount of hay ruined. It is estimated that the loss will be close to \$1200, which is fully covered by insurance. At the time the fire broke out, the colored man, Weston, who cares for the barn and horses, was away and the fire was discovered by a domestic, Miss Dora Roucher, and Mr. Frank Bings, who was calling on her. They ran to the burning barn and heroically dragged the horses out after which they returned and succeeded in getting the carriages to a place of safety. The colored man returned to the barn about an hour and a half after the fire and was greatly surprised to find his room ruined by the fire and water. It is not known how the fire originated.

MAN WHO RESISTS LAUGHTER IN THEATER

By Louis Mann.

There are certain people who resent humor—they are Joke Fighters, otherwise under-pates, jobbernows or ninnymammers.

In the theater they are a kill-joy and wet blanket. They hinder and impede, thwart and frustrate every effort that makes for merriment.

They belong to that class whose thoughts are so stiff that it hurts them to exercise their mental joints.

To these a subtle witicism is a bore, while a sharp epigram has the same effect that ipecac has to the stomach; it annoys, and is resented

JOHN TANN, one of Sellers

But when a Joke Fighter announces that he "can see the point, but it is not funny," he has reached the ossified state, from which there is no recovery.

It is the boast of man that woman is lacking in a sense of humor. But the truth is, neither sex has a monopoly of this blessed instinct; for some of the sturdiest Joke Fighters agoing wear boots and shave.

Because a woman does not enjoy "Drummers' Yarns" is not sufficient reason to class her as a Joke Fighter. It should not be overlooked, either, that many a woman has a cross to bear. She has the "double cross" when she is inflicted with a husband who persists in telling the same old story over and over again and who grumbles if the wild guffaw is not produced at each repetition.

Democratic Presidential Timber.

The Washington correspondent of
the New York Herald, met Hon.
Wm. E. Miller during the latter's
recent visit to that city for the pur-
pose of ascertaining information re-
garding the political situation in
Ohio. The correspondent thus re-
ports his interview in the Herald of
March 24:
"With the bitter row that has
sprung up between the Republican
factions in Ohio, and that will be
continued with ever-increasing heat
until the end of the next national
campaign, I believe the Democrats,
if they make a prudent nomination,
can carry Ohio in 1908," said Hon.
W. E. Miller, of Newark, Ohio, at
the New Willard. Mr. Miller was a
former state senator, and always
a staunch Democrat.
"The way in which the two sena-
tors were turned down by the Pres-
ident's refusal to appoint their can-
didates for judge adds further bit-
terness to the situation. It is war
to the knife from now on, with no
possibility of harmony and recon-
ciliation. My own notion is that
the old Democratic party will elect
the next President if it has the sag-
acity to name either of three men
—Judge Harmon, of Cincinnati;
Judge Gray, of Delaware, or Chas.
A. Towne, of New York. I am satis-
fied that either of these three men
can carry Ohio."

It turns out that after all the
bluster about it the administration
declines to join in the proposed

LIFE INSURANCE

For some time organizations con-
trolling or holding vast sums of mon-
ey, have been the chief objects of
public attention. Honest men have
welcomed this manifestation of pub-
lic interest in the problems created
by modern methods of conducting
enormous enterprises. Clear-headed
men realize at the same time that
some of the institutions made promi-
nent by their far-reaching operations
and intimate relations with the pub-
lic, are conducted by men of the
highest integrity and are performing
a public service of incalculable value.

The great Metropolitan Life Insur-
ance company, of New York, is com-
ing more and more to be recognized
as an institution whose attitude to-
ward the public is nearer to that of
a generous philanthropist than an op-
pressive capitalist. This company
conducts the business of insurance in
a way that can be understood by the
ordinary citizen. It estimates in the
light of universal experience and ex-
pert knowledge the actual cost of in-
suring a life under given conditions,
exact a legitimate premium based
upon cost, writes a policy as definite
and clear as the simplest business
contract, and then PAYS every dollar
the beneficiary expects or hopes to re-
ceive.

The Mildest and Most Effective Laxative Known

No laxative sold in our store can compare with this perfect
bowel regulator in gentleness and efficiency. It is not a re-
arrangement of old laxative and cathartic drugs, but an entirely
new laxative and cathartic. All the good points of other laxatives
have been carefully preserved in this new laxative, while their
faults have been as skillfully eliminated.

IN POLICE COURT.

Mayor McCleery went after another
prisoner Wednesday morning, charged
with beating his wife and assessed
a heavy fine. This was said to be the
second offense and the mayor decided
to try the remedy of a \$25 fine and a
stone pile sentence. Daniel White,
an expressman, living in West New-
ark, was the victim. A complaint
was made that White struck his wife
in the face after a quarrel. He is said
to have taken to his heels and es-
caped from the officers for the time
being. He was locked up later by Of-
ficers Moore and McClure.

In police court White claimed that
he was a victim of a plot with his
wife and son as the plotters and that
they were working to get him in the
county jail for a spell. The mayor
assessed a fine of \$25 and costs and
sent him to the stone pile.

Five plain drunks were before the
mayor in police court Wednesday
morning, each entering a plea of
guilty. Fines of \$5 and costs were
assessed and the men sent to the
stone pile.

Louis White, an East Newark man,
drew a fine of \$5 and costs and a 30
day county jail sentence for stealing
coal from the B. & O. He was ar-
rested by Railroad Officer Andrews at
5:30 o'clock Wednesday morning in
the B. & O. yards. White is under a
suspended sentence. When arraigned
he pleaded guilty and was fined and
sentenced as above stated.

Pearl Hawkins and Frank Heaney,
two gentlemen of the traveling frater-
nity, met Officer Abbott last night
in East Newark and could not give a
satisfactory account of themselves.
They were found at 2:30 o'clock on
Wednesday morning. Each was fined
\$5 and costs and sent to the stone
pile.

A case of horse stealing reported
from Coshocton on Monday night
occupied the attention of the local
police Tuesday. A lookout was kept
up during the day for suspicious
characters in this city, but Tuesday
night a report was telephoned, that
the thief had been captured near Co-
shocton. It is understood that the
man is known locally and that a New-
ark officer may be sent to Coshocton
to identify him.

Eloise was having thoughts. That they were not pleasant thoughts was proved by the hurry with which she donned her tan ulster and close brown walking hat and slipped out of the house. She hurried down brilliantly lighted Broadway, hoping that the new experience of being alone, unprotected, unprotected, amid the rush of life on all sides, might divert her mind. She was halted at last by a man with a megaphone. He was shouting: "All aboard for Chinatown! Right this way. Tickets two dollars. All aboard for Chinatown!"

She looked up at the huge, ugly "rubberneck wagon," now fairly transformed into a bower of beauty of red, white and blue electric lights and Chinese lanterns bobbing in the chill breeze. It seemed to offer succor from the insistent, uncomfortable thoughts at the back of her brain. The old wagon in its brave array held some of the allurements of fairyland and its happy irresponsibility, and on the spur of the moment she whipped out her purse

"WHAT ARE YOU DOING HERE?" HE DEMANDED.

from her ulster pocket, bought her ticket and climbed in among the lanterns well toward the front.

George had dared to insinuate that she could not get along without him. He had acted as if he were as much a part of her life as her daily ride in the park, her nights at the opera, her cotillon favors. Worse still, there had been, too, the suggestion that he was so much a part of her existence that she could not get along without him. Other girls were wooed and hard won. She was taken for granted. And she wanted romance—"heart interest" she had heard it called when the drama was under consideration. All her life had the conventional been wrapped around her like a dun colored cloak. She would have freedom from conventionality—and George.

A thrill of anticipation ran through her as the big, clumsy vehicle wheeled cautiously and threaded its way down the crowded streets. Through the Tenderloin, the Ghetto, the Bowery—all those localities of which she had heard, but never seen—it went. When it halted at last she was in the front of the party, still determinedly eager to get outside of herself. The conductor had taken her under his wing, and she felt very safe and sure.

They had climbed up and up and up many winding, creaking, unsafe stairs to the joss house, a heathenish, garish place filled with a mixture of rare carvings, embroideries, ivories and apparently worthless junk. The conductor or of the party wanted to give his explanation until the loiterers had gone. "Ladies and gentlemen," he said, "wait a few minutes, and I will explain this interesting place. There are some people present who did not come with the party and who are waiting in the hope that they will get the benefit of what I am about to tell you."

A little woman in a blue tailored suit edged her way with asperity into the crowd. "Do you mean me?" she demanded. "I guess we have as good a right to be here as any one. And we'll stay here till we are ready to go."

The conductor turned to Eloise for approval.

"The members of this party have each paid \$2 for this valuable information, and it is not fair to them to allow you to hear this for nothing. I know your kind. You have been following us around just to get this information free. Not a night passes but I have trouble of this kind, and it's got to stop."

The little woman fought off her friends who strove to lead her away. "And who are you that you should talk to me that way?" she cried. "Do you know who I am? I'll have you arrested for insulting a lady. My brother is down now looking for a policeman. Do you hear?" she shrieked, maddened by her inability to impress the cool conductor.

There was a commotion in the doorway, and two men pushed through and thrust their fists under the conductor's nose.

"I'll report you," they yelled, "for insulting a lady."

Eloise turned sick. She pushed out of the excited crowd, past the two emaciated, imperturbable old Chinamen behind their little trinket counter and fled to the balcony overlooking the main street of the Chinese quarter.

It was horribly low. She shuddered at the thought of where she was and under what protection as she gazed down from the lantern hung balcony into the street crowded with Chinese in their native dress—their pig faces, long cues and long nailed fingers holding paper bags filled with vegetables. "Eloise!"

She jumped at the sound of her name and a man's step on the balcony pressed back against the wall of the house, staring with wild eyes at the man before her.

"What are you doing here?" he demanded. "Why, you have never been out like this! What does it mean?"

She gathered her forces suddenly for retaliation.

"What if I haven't?" she said, somewhat breathlessly. "I am old enough to do as I choose—and it is not in the least your affair what I do!"

She pushed past him into the incense laden interior to have the conductor present her with a package of joss sticks and a slip of paper covered with Chinese characters.

"A fortune," he said gallantly. "Ask your Chinese laundryman to read it for you."

"I haven't a Chinese laundryman," she exclaimed passionately, "and I never will have one!"

She ran almost blindly down the stairs and into the street, trusting to her instinct for locality to guide her to the nearest subway station. The orientals fell back in wild astonishment at sight of her fleeing figure, and a few fat old fellows said unintelligible things to her which caused a roar of laughter.

Her cheeks were burning, her breath was coming in gasps, as she came into the little square marking the one time wickedest place in New York. All at once she felt that she was being followed. Quick, light footfalls were coming behind her, were keeping pace with hers, and terror clutched her heart. A few drunken men sprawled on the park benches. To return was impossible. She could never find the "rubberneck" party. There was nothing to do but keep on as best she could.

She emerged from the park ready to drop with exhaustion and was obliged to slow down to get her breath. To her relief she found the steps had stopped, and no one was in sight. She went on and on through the better streets of the wholesale district and at last saw the twinkling lights of surface cars ahead. She reached for her purse. It was gone!

She stopped stock still on a corner, frozen with horror. Alone at 11 o'clock at night on a deserted street, with no money and home miles away! The ill of her guarded, pampered life showed uppermost in this dilemma. A less favored girl would have known what to do. She stood there dazed, helpless, till the sound of rapidly approaching footsteps startled her into action. She sprang forward.

"Eloise!" A man's voice echoed her name commandingly among the skyscrapers.

She collapsed all in a heap on the curbstone.

"You—you—lovable girl," he said, looking down at her limp person struggling for breath.

"Oh, George," she panted, "I didn't know it was you!"

He sat down on the curb beside her.

"I thought you did," he said.

"And there wasn't any real danger?" she asked, wide eyed. "Oh, what a simpleton!"

"None at all except from the ogre me," he laughed shortly.

"Oh, George, you are simply fine!"

"You didn't think so last week this time," he said relentlessly.

"But you didn't insist," she pouted. "A girl likes to be convinced."

"Oh, you—you—I will say it—foolish girl!" he said, with adoring eyes.

The Word "Explode."

"Explosive" was first used in its modern sense in the first quarter of the nineteenth century. "Explode" in the sense of "blow up" or "go off" is scarcely a century older. Before that people talked of a ball being "exploded" from a gun, the clouds "exploding" lightning or a volcano "exploding" lava, but that was very much nearer the word's original sense of driving away with scorn. "Explode," in fact, is literally to clap away and was a technical word for driving an actor off the stage by contemptuous handclapping. That is the real meaning of an "exploded idea."

Her Glance Backward.

In a Broadway car long past midnight a robust, motherly woman sat with a well grown boy of about fifteen beside her. The boy had fallen asleep, and his head rested heavily against her shoulder.

A man entering the car was cordially greeted by the woman and was about to slap the boy on the knee when the mother interposed.

"Don't wake him," she pleaded. "He's so big now that he is ashamed of doing childish things. This is the first time in a year that he has been my baby boy again. Let me enjoy it!" —New York Globe.

THE FALL OF NATIONS

How Great World Powers Have Passed Into History.

MOST HAVE DIED FIGHTING.

The Struggle Between the Empire of the East and the Empire of the West. Venice, Its Secret Three and Its Long Reign of Terror.

Most countries which have died have gone down fighting. The Roman empire perished like that, and by the irony of fate the power of the Caesars came to an end far away from Rome.

After it had existed for centuries the Roman empire became so vast and unwieldy that it had to be divided into two, the empire of the west and the empire of the east. The capital of the former was Rome.

The empire of the west became so weak at last that it could make no stand against its enemies. Rome was sacked by the barbarians and eventually became not the capital of a vast empire, but the city of the popes, over which the pontiffs reigned as kings. The temporal power of the popes lasted till 1870, while the capital of Italy was first Turin and then Milan. Finally the city was taken without a real fight by the soldiers of the king of Italy.

The empire of the east had its capital at Constantinople. For centuries it was the greatest power in the world. But it became honeycombed with vice and enervated with pride and luxury; also it grew old and weak. Then in 1422 the Turks made a tigerish spring on Constantinople and took it by storm. The last of the Greek emperors died sword in hand, and his descendants are living in England today in very humble situations.

Egypt, once so powerful and so famous under the pharaohs, was conquered by Rome and was afterward swamped by the Moslems. The crescent was supreme in the land of the Nile, and the aforetime haughty Egyptians were slaves for a thousand years.

The great moguls used to reign in India. In the days of Queen Elizabeth the mogul—or emperor of Delhi, as he was sometimes called—was so powerful that he thought it a vast condescension on his part to receive an embassy from the maiden queen. But as time went on the great rajahs, or tributary kings, rebelled against the moguls. India was rent asunder by the wars between rival rajahs. This gave the Europeans a chance.

France at first held the upper hand and nearly conquered the land, but then England drove France back and seized the empire of the great moguls for herself. The heir of the moguls, by the way, still enjoys a pension given by the British government as a compensation for the throne lost by his ancestors.

Poland used to occupy a big place on the map of Europe. At one time it was much larger and stronger than Russia. The czar of Russia and the emperor of Austria were only too glad to be on good terms with the king of Poland, and there was no king of Prussia in those days.

Noble adventurers from all parts of the world flocked to the Polish capital at Warsaw, eager to serve in the Polish armies. The Duke of Monmouth, son of King Charles II. of England, thought of doing this.

But Poland perished through her own faults and follies. The mass of the common people were slaves in all but name. They were not allowed to move from one part of the country to another without leave, they could not own a foot of land, and they could never be sure that they might not be sold by the great noble they served to a new master; hence the nobles and the people never stood together in times of danger or disaster.

Poland was a big country, but it was divided against itself, and Russia, Prussia and Austria combined were more powerful. They all three joined hands, and each took a large share of Poland in 1772. That was the "first partition of Poland." The Poles submitted tamely, for they were still divided.

In 1793 the trio of robbers made a second swoop. Only the ghost of Poland was left. Another year saw the end of the tragedy. The last remnants of Poland were swallowed up by Russia, Prussia and Austria.

The fate of the republic of Venice is one of the most dramatic in all history. For hundreds of years the City of the Lagoons was one of the most powerful states in the world. Its doges ranked as the equals of the proudest kings. Its alliance was coveted by the great powers. Its government was one of sheer terrorism. The doge was hardly more than a splendid figurehead. All real power rested in the hands of the dreaded council of ten and the secret three. The latter were a trio of living mysteries and were known by name to practically no one in Venice.

Sometimes a man was one of the secret three and his own wife and children never dreamed it. Their most dreaded servants were masked mutes. If a Venetian, no matter how high his rank, was denounced by the council he was no better than a dead man. So the government of Venice was a terror to its own people and the outside world. Then Napoleon came upon the scene, and "the lion of St. Mark licked the dust." —Pearson's Weekly.

"I have generally found that the man who is good at an excuse is good for nothing else," said Franklin to a servant who was always late, but always ready with an excuse.

Excitement increasing. Tangier, March 27.—The excitement among the population in the interior against Europeans is increasing, according to letters received from various parts of the country. The situation at Casa Blanca and Rabat is particularly dangerous, both towns continuing to be threatened by bands of pillagers. The Moroccan troops are absolutely inactive. Many of the men have deserted at the fact that the authorities have no funds with which to pay the soldiers.

FOOD POISONS

90 Per Cent of All Diseases the Result of Undigested Putrefying Foods

Men of affairs, women of society and children with active brains are too often sedentary in their habits, giving little time to exercise. To this evil is added that of high and irregular living—as a result, the stomach cannot stand the demands made upon it. The abused and overtaxed stomach does not properly do the work of digestion, food taken in ferments and the poison permeates the whole system. The body loses in weight and becomes a prey for the attack of whatever disease it may encounter.

Did it ever occur to you how busy that stomach of your is? It only holds three pints, but in one year you force it to take in 2,400 pounds of material, digest it and prepare it for assimilation into the blood. No wonder it rebels when overworked. We crowd it with steaks and pastry, irritate its juices with spices and acids, and expect the stomach to do its work. It can't do it.

All over the inner layer of the stomach are glands which secrete the juices necessary to digestion. The entrance of food into the stomach is the signal for these glands to do their work. The more the food, and the more indigestible, the greater the demand upon them and upon the muscles of the wall adjoining.

Think of the tons of high-seasoned game, sweetmeats and appetizers crammed into this little four-ounce mill, and then wonder, if you will, why you are dizzy or nauseated or constipated. Don't blame your stomach or curse your fate that you should be born so unfortunate. Blame yourself and apply the remedy.

First, get a small package of Stuart's Dyspepsia Tablets, taking one after each meal and at bedtime. They are not a medicine, but a digestive. Your stomach is worn out and needs help, not medicine. Stuart's Dyspepsia Tablets will do the work that the stomach fails to do. There's enough power in one grain of Stuart's Dyspepsia Tablets to digest 3,000 grains of ordinary food, so you needn't fear that anything you eat will remain in your stomach undigested.

Stuart's Dyspepsia Tablets will rout the poison because they remove the cause—food fermentation. They are nature's own cure for dyspepsia. The host of troubles dyspepsia is father of cannot be numbered, for a healthy stomach is the source of all health. Seize your opportunity before worse conditions confront you. Send today for a free trial package of Stuart's Dyspepsia Tablets. They will bring your stomach relief. F. A. Stuart Co., 83 Stuart Bldg., Marshall, Mich.

NEWARK BEAUTIES IN THIS CONTEST

CHICAGO PAPER SAYS THE PRETTIEST WOMAN LIVES THERE.

Other Cities Are Putting In Claims and Newark Has a Good Chance.

Here is great news for the beautiful women of Ohio, and for all their friends and relatives.

The beauty question which was started by the grandiose proclamation of the Chicago Tribune that the woman it has selected as the most beautiful woman in Chicago is the most beautiful in the United States has grown into a national affair.

The leading newspapers in twenty-three of the largest cities in the country have taken up the Chicago challenge. Each is seeking for the most beautiful woman in its city or state to pit against the Illinois beauty. That has made necessary the appointment, soon, of a commission of judges, probably most of them famous artists, to decide which of these chosen contestants is the most beautiful. This woman whether she represents Ohio, Pennsylvania, or New England, will be declared the queen of American beauty.

The Cleveland Leader challenges for the entire State of Ohio. But The Advocate was not willing to let the Leader have all the glory. The Leader's challenge being in, it could not challenge again for the state. What it could do and what it is now engaged in doing, was to give its assistance in making the choice of the woman who will represent Ohio in this galaxy of national beauty, a worthy one.

To the credit of the newspapers of Ohio be it said, sixteen others are doing the same thing.

This is an array of champions which the women of Ohio should be proud of. The Advocate is proud to be one of them.

The most beautiful women in Ohio must be found.

There are no more beautiful women in Ohio than in Newark. Their friends and relatives should come to the rescue. Send their photographs to The Advocate. They will be kept carefully and returned by mail as soon as the decision is made for Ohio. Write the names and addresses plainly on the backs. Actresses and models are barred.

Rally for the beautiful women of Ohio! Send in their photographs to The Advocate.

BENNING CROWDED WITH GOOD HORSES FOR BEGINNING OF NEW SEASON.

Washington, March 27.—The Benning track is a lively place these days, there being something like six hundred horses on hand. The stable facilities of the track were exhausted a long time ago, and every available resting place within a mile of the course has been snapped up. John Madden has a string of about forty horses quartered in stables, and among the stable boys here, Tangle, Sally K. Dand and a number of promising youngsters.

"Billy" Garth, who is sure to cut a figure in racing this season, has a big stable, made up of the property of different owners, and among the horses are Paul J. Rainey's which Garth will train this season. He will also have Radtke and Miller as stable riders, and with his horses in good shape

WEDDINGS.

RICHARDS-SAYRE.
Mr. Clarence Ralph Richards and Miss Laura Alice Sayre were married Sunday morning. The ceremony took place at 3:30 o'clock, and was performed by the Rev. H. Newton Miller at his residence, 157 North Ninth street. The bride is a daughter of Mr. and Mrs. Albert Sayre of Fairview, Belmont county, but for some time past has been a domestic nurse living in Newark. The groom is a son of Dr. S. F. Richards, of 17 North Pine street, and at present is connected with the Hudson Avenue pharmacy.

GOFF-KERR.
The marriage of Miss Hattie Goff and Mr. Lee Kerr was solemnized by Rev. G. E. Hughes at Zanesville at 5 o'clock Tuesday afternoon. The ceremony was performed in the presence of only a few relatives and friends of the high contracting parties. The bride is the daughter of Richard Goff of Zanesville, and the groom is a farmer of the Frazersburg neighborhood.

GEO. W. CRAWFORD GETS THE PRIZES

NEWARK MAN'S EXHIBITION AT COLUMBUS ATTRACTS ATTENTION.

Out of Thirteen Classes, Sharon Valley Horses Took Six Firsts and One Second.

Col Geo W. Crawford's Sharon Valley stock farm carried away the bulk of the prizes at the Columbus Horse Show Tuesday. His exhibition of fancy draft horses cleaned up the platter, more cups and ribbons coming to the Newark man than to any other individual exhibitor in the show.

Out of thirteen classes, the Sharon Valley horses took all the prizes in six and second prize in the seventh class. The State Journal Wednesday morning stated that Col Crawford's "Lightning" was made nervous by the lights and no doubt lost the cup in the tandem class on that account. The list of prizes captured by Colonel Crawford follows:

- Class 15—Draft stallions, 4 years old and over—Rival won; Bassac, second. Commanden, third. All from Sharon Valley stock farm.
- Class 16—Tandems—Midnight and Starlight, Mitchell stock farm, won; Sunlight and Lightning, Sharon Valley stock farm, second.
- Class 19—Draft mares, 4 years old and over—Sultana won, Theodora second; Bolive, third. All from Sharon Valley stock farm.
- Class 20—Draft mares, 3 years old and under four—Calmie, won; Draga d'Uor, second; Chamante, third. All from Sharon Valley stock farm.
- Class 22—Coach stallions of any recognized breed—Walters, Sharon Valley stock farm, won; Romeo, C. B. Boyer, second; Fulvis, Sharon Valley stock farm, third.
- Class 25—Draft stallions, 2 years old and under three—Fritz won; Iron, second; Cyrus, third. All from Sharon Valley stock farm.
- Class 26—Draft mares, 2 years old and under 3—Lucille, won; Rosette, second; Blanchette, third. All from Sharon Valley stock farm.

Founder of the Japanese Navy.
The founder of the Japanese navy was an Englishman named Will Adams, who went to the eastern seas as pilot of a Dutch fleet in 1593 and was cast away in Japan a couple of years later. He became a Japanese noble and constructor of the navy to the tycoon, but was never allowed to return to England. He died about twenty years afterward, very ingeniously leaving half his property to his wife and family in England and half his property to his wife and family in Japan. After his death he was deified.

Run-down People

NEED VINOL the modern strength creator and body builder

Many people right here in this vicinity are all run down and hardly able to drag about,—don't know what ails them.

In ninety-nine cases out of a hundred this is caused by overwork, too close confinement or continued strain and worry.

Our local druggist, Frank D. Hall, says: "Such people need Vinol, our cod liver preparation without oil, which contains in a highly concentrated form all of the medicinal and strength-creating elements of cod liver oil actually taken from fresh cods' livers, but from which the useless oil has been eliminated and tonic iron added."

Vinol cures conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, makes rich, red blood, and strengthens every organ in the body.

We ask every man, woman and child in this vicinity who is run down, tired and debilitated to try Vinol on our offer to return money if it fails.

Frank D. Hall, Druggist.

Matrimony in Central Africa.
Quads are plentiful at Lake Nyanza, and after being married in the grass by the natives they are kept in small wicker cages strung on a long pole stuck in the ground. The Balloon Plant.
One of the curious devices of nature for scattering seeds is seen in the balloon plant of California. The fruit is yellow and is a little larger than an egg. It has the appearance of an empty bag, but it contains a watery substance which evaporates or dries up when the fruit matures, a sort of gas taking its place. This gas is lighter than air, and the fruit flips back and forth in the wind until it finally breaks loose from its slender stem, rises into the air to a height of from seventy-five to a hundred feet and sails away to fall in some distant spot and thus extend the growth of its kind.

ORDINANCE NO. 1780.

Determining to Proceed with the Improvement of North Tenth street from Grand street to Hoover street.

Section 1. That it is hereby determined to proceed with the improvement of North Tenth street, from Grand street to Hoover street, by constructing a sanitary and drainage sewer in accordance with a resolution declaring it necessary to improve said North Tenth street from Grand street to Hoover street by constructing a sanitary and drainage sewer, passed on the 7th day of January, 1907, and in accordance with the plans, specifications, estimates and public notices heretofore approved, now on file in the office of the Board of Public Service.

Sec. 2. That said materials used in the construction of said improvement shall be first-class quality vitrified clay pipe, laid in diameter for the main sewer and six inches in diameter for the house connections, the man-holes, catch basins, and inlets shall be built of brick with proper cast iron covers according to the plans and specifications.

Sec. 3. That all claims for damages resulting from the said improvement shall be judicially inquired into before commencing said proposed improvement, and the collector is hereby authorized and directed to institute proceedings in the court of competent jurisdiction to inquire into such claims.

Sec. 4. That the whole cost of said improvement, less one-fifth thereof, and the cost of interest thereon, shall be assessed by the foot frontage upon the following described lots and lands to-wit:

John B. Smith, Lot No. 2319, Jones and Smucker's Addition.
John B. Jones, Lot No. 2304, Jones and Smucker's Addition.
John B. Jones, Lot No. 2302, Jones and Smucker's Addition.

David C. Walker, part of Lot No. 3396, Eddy's Addition.
G. I. V. Billingsley, part of Lots 3396-3397-3398, Eddy's Addition.

Which lots and lands are hereby determined to be specially benefited by said improvement, and the cost of said improvement shall be included in the expense of printing and publishing notices, regulations and ordinances required and the serving of said notices the cost of construction together with the interest on bonds issued in anticipation of the collection of deferred assessments, and all other necessary expenditures.

Sec. 5. That the assessments so to be levied shall be paid in 5 annual installments with the interest deferred assessments at five per cent per annum, provided that the owner of any property assessed, may at his option pay such assessments in cash within thirty days from and after the passage of the ordinance in which such assessments are made. Such assessments shall not include any item of interest upon bonds issued in anticipation of the collection of deferred installments of assessments.

Sec. 6. That the bonds of the City of Newark, Ohio, shall be issued in anticipation of the collection of assessments by installments and in an amount equal thereto. That the remainder of the entire cost of interest on the bonds so issued, and the cost of real estate therein purchased, or appropriated and the cost and expense of an appropriation proceeding therefor, and the damage awarded any owner of adjoining lands and interest thereon, and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Sec. 7. That the Board of Public Service be and the same is hereby authorized and empowered and directed to make and execute a contract for said improvement with the lowest and best bidder after advertisement according to law.

Sec. 8. That this ordinance shall be in force and take effect from and after its passage and legal publication.

CONTAGIOUS BLOOD POISON NO LIMIT TO ITS POWERS FOR EVIL

Contagious Blood Poison has brought more suffering, misery and humiliation into the world than all other diseases combined; there is hardly any limit to its powers for evil. It is the blackest and vilest of all disorders, wrecking the lives of those unfortunate enough to contract it and often being transmitted to innocent offspring, a blighting legacy of suffering and shame. So highly contagious is the trouble that innocent persons may contract it by using the same table ware, toilet articles or clothing of one in whose blood the treacherous virus has taken root. Not only is it a powerful poison but a very deceptive one. Only those who have learned by bitter experience know by the little sores or ulcers, which usually makes its appearance first, of the suffering which is to follow. It comes in the form of ulcerated mouth and throat, unsightly copper colored spots, swollen glands in the groin, falling hair, offensive sores and ulcers on the body, and in severe cases the finger nails drop off, the bones become diseased, the nervous system is shattered and the sufferer becomes an object of pity to his fellow man. Especially is the treacherous nature of Contagious Blood Poison, shown when the infected person endeavors to combat the poison with mercury and potash. These minerals will drive away all outward symptoms of the troubles for a while, and the victim is deceived into the belief that he is cured. When, however, the treatment is left off he finds that the poison has only been driven deeper into the blood and the disease reappears, and usually in worse form because these strong minerals have not only failed to remove the virus from the blood but have weakened the entire system because of their destructive action. S. S. S. is the only real and certain cure for Contagious Blood Poison. It is made of a combination of healing blood-purifying roots, herbs and barks, the best in Nature's great laboratory of forest and field. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral in any form. S. S. S. goes down to the very bottom of the trouble and by cleansing the blood of every particle of the virus and adding rich, healthful qualities to this vital fluid, forever cures this powerful disorder. So thoroughly does S. S. S. cleanse the circulation that no signs of the disease are ever seen again, and offspring is protected.

No charge is made for this book, and if you wish special medical advice about case or any of its symptoms, our physicians will be glad to furnish that, too, without charge.

Advice to Women

Mrs. Pinkham's Standing Invitation to Women

All sick women are invited to write Mrs. Pinkham, Lynn, Mass., for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham, in advising. Thus she is especially well qualified to give advice to sick women. Write today, don't wait until too late.

Mrs. Pinkham never violates the confidence thus entrusted to her, and although she is constantly receiving testimonials from women who have been benefited by her advice and medicine, never in all her experience has she published such a letter without the full consent, and often by special request of the writer. Neither has she ever disposed of her confidential letters in any other way. Every one of the hundreds of thousands of letters written to her by confiding women she has to-day under lock and key in the Company's laboratory at Lynn, Mass. Remember, the best medicine for women is

Lydia E. Pinkham's Vegetable Compound.

EVERY WOMAN SHOULD CONSIDER THESE FACTS

First, that almost every operation in our hospitals, performed upon women, became necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has overcome more cases of female ills than any other one medicine.

It regulates, strengthens and restores women's health and is invaluable during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the power of Lydia E. Pinkham's Vegetable Compound over the illnesses of women.

JUDGE BRISTER GIVES THE NAMES

OF NEW MEMBERS OF THE
BOARD OF COUNTY
VISITORS.

Attorney D. M. Keller and Mrs. Geo. Webb Are the Appointees—
Other Court Notes.

In accordance with Section 632-15, as amended February 28, 1906, Probate Judge Brister Wednesday appointed two new members of the board of county visitors to succeed two retiring members who have performed valuable service on the board—Mr. H. W. Howe of Granville, and Mrs. Christie Metz of Newark. The new members appointed are: Attorney D. M. Keller and Mrs. George P. Webb, both of Newark. Their terms will expire May 1, 1910. The board now stands as follows: Mr. T. B. Fulton and Mrs. L. P. Sisson, terms expire May 1, 1908; Mr. J. M. Crawford and Mr. Clara Larason, whose terms expire May 1, 1909, and Mr. D. M. Keller and Mrs. George P. Webb, whose terms expire May 1, 1910.

Walter Hartup and Harry Hagans were taken over to the Boys' Industrial School at Lancaster on Wednesday. They were sentenced for stealing a pocketbook and money from a buggy belonging to Mrs. Fannie Miller.

Juvenile Court.

Since the first of October, 1906, up to the present time, there have been sixty-five cases disposed of by the juvenile court. They have been disposed of in various ways. Some have been sent to the Boys' Industrial School at Lancaster, some to the Children's Home, while others have found good homes in private families. One good effect of the juvenile court during the year of its operation is shown in the fact that habitual truancy has diminished fully 50 per cent, or one-half, and the number of crimes seems to be diminishing.

The juvenile court judge is determined to do all in his power to protect the young wards of his court—the boys and girls. Each case will be dealt with as the peculiar circumstances seem to demand under the law, and parents and all others contributing to the delinquency of these children will be punished according to the strict letter of the law. The judge of the juvenile court and the probation officers ask the hearty co-operation and aid of all good citizens in this great and important work.

Decree Granted

The case of Rosetta Nunn against A. Nunn, suit for divorce, came up for hearing in the probate court Wednesday morning. The court after hearing the evidence, granted the decree to the plaintiff on the grounds of extreme cruelty, failure to provide and drunkenness. The plaintiff was also awarded the custody of the children and given alimony to the amount of \$500. Russell & Horner, attorneys for the plaintiff.

Circuit Court.

The case of George P. Webb, receiver of the Homestead Building and Savings Co., v. A. A. Stasel, receiver of the Newark Savings Bank Co., was argued to the court this morning on a motion to dismiss the appeal from the common pleas to the circuit court.

The Homestead Co., at the time of the failure, had a deposit account in the bank to the amount of about \$23,000. A claim was presented to the receiver of the bank for this amount and the claim was rejected. Thereupon, an action was brought against the Newark Savings Bank, Stasel and Flory & Flory, for the motion to dismiss the appeal; Kibler & Montgomery, Webb, contra.

John B. Woolson v. Mary A. Davis et al., argued to the court on motion. Stasel, Follett & Follett; Flory & Flory.

B. & O. R. R. Co., plaintiff in error, v. John E. Lamp, defendant in error, argued and submitted. Plaintiff sued for injuries sustained while in the employ of the company, and recovered a judgment in the common pleas court for \$1,000. It is to reverse this judgment for errors claimed on the trial that the case is taken to the circuit court. Kibler & Montgomery; Hunter, Norpell & Norpell.

Allison Divorce Suit.

Smythe Smythe, as attorneys for Mary A. Allison filed her petition in Probate court praying for a divorce from Thomas M. Allison. She alleges that they were married on the 8th day of April, 1876, and that two minor children are living of said marriage. That the defendant has been willfully absent from the plaintiff for three years and longer; that he has totally neglected to provide the plaintiff and said children with the necessities of life; and that for three years he has been an habitual drunkard.

Action for Alimony.

Vera E. Hardway, by her attorneys Smythe & Smythe, has filed her petition in the Probate court against Stanley W. Hardway and the Wehrle company, praying for alimony. She briefly stated, that they were married on the 26th of November, 1906, and that since said marriage he has totally neglected to provide her with home, food and clothing. She asks that the Wehrle company be enjoined from paying to the defendant any of the moneys owing to him from said company.

Reply to Answer.

In the case of Charles Hurbagha against Mary A. Foster and others, the defendants, Mary A. Foster and E. B. Baader, administrator of the estate of Charles A. Foster, deceased, the plaintiff has filed his reply to the answer of the defendants. He says it is not true that he agreed that a certain well, when drilled, should furnish ample water to supply the house and farm necessities on the farm, or that an abundance of water would be found by the plaintiff before anything would be due or payable; that it is not true that the well and the water was wholly inadequate to furnish the amount of water which plaintiff agreed that the well should furnish; or that the same has not furnished, since the drilling, sufficient water to supply the house or farm, or that the water that was furnished was inferior in quality, and unfit for domestic use. He says that he has carried out fully his contract and he asks judgment. J. R. Davies, attorney for plaintiff.

Sanitary Carpet Cleaning

THERE is only one way that you can possibly get the dirt and dust from UNDER your Carpets — TAKE THEM UP. Disease germs thrive in dust and dirt and a method that merely cleans the dust from the TOP of your Carpet should be shunned, for the dirt remains under the carpet, consequently your floor and paper are in an unhealthy line. We take your carpet up—put it on a wire screen floor, apply 80 pounds of Compressed Air, to the SQUARE INCH ON BOTH SIDES OF THE CARPET—result, a perfectly clean carpet.

Then scrub your floor and clean or renew the papers—then and only, will your carpet and room be PERFECTLY CLEAN and in a SANITARY CONDITION.

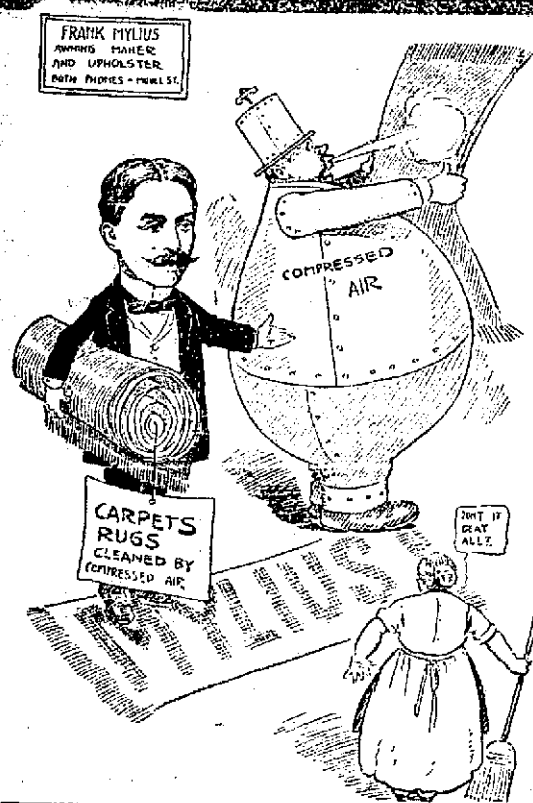

FLOORS CANNOT BE PUT IN A SANITARY CONDITION WHILE THE CARPET REMAINS UPON THE FLOOR. However, if you want your carpet merely brightened on top, without being taken up from the floor, we will do it for 50 cents a room.

WOULD LEAVE IT TO THE PEOPLE

Foraker on Ohio's Choice For the
Presidential Nomination.

PLANS PRIMARY ELECTION

Would Have State Convention Determine Preference of Buckeye Republicans as to Candidates For Senator and President—Says He Has Nothing to Conceal From Constituents.

Washington, March 27.—In a statement just issued by Senator Foraker, it is made plain that Ohio's senior senator does not concede that Secretary of War William H. Taft will be Ohio's choice for the presidential nomination next year.

In his statement Senator Foraker says he does "not want any political honors from the people of Ohio without their hearty approval," and he suggests that the proper way to determine who is the choice of the people to head the Republican ticket and to represent the state in the United States senate is for the Republican state executive committee to authorize a primary election to choose delegates to the state convention which will be called upon to determine these questions. The announcement of Superintendent of Insurance Vorys that he will support Secretary Taft for the presidential nomination led Senator Foraker, it is believed, to issue the statement outlining his position. The senator declares that he is willing to go before the people on his record, and that he has "nothing to conceal from his constituents." Mr. Foraker does not say that he will be a candidate to succeed President Roosevelt, but it is generally understood among his friends in Washington that at a later date he will formally announce his candidacy, and that if the primary election is called in Ohio he will enter into the fight to secure the endorsement of his own state. Senator Foraker's statement follows:

I have been so busily occupied that I have had neither time nor disposition to even think about politics, either state or national, especially politics that belong to next year. It seems to me premature to be now discussing what is so far ahead. However, in view of the interviews and announcements of one kind and another that are appearing in the newspapers, I feel that I may, with propriety, say that I do not want any political honors from the people of Ohio without their hearty approval.

In order that there may be no doubt as to my preferences, I shall at the proper time request the Republican state central committee to issue a call for a Republican state convention, to be composed of delegates elected by the Republicans of the state at large, to authorize primary elections, for the purpose not only of nominating candidates for state offices to be voted for at our next state election, but also to determine the preference of the Republicans of Ohio as to candidates for United States senator and for president.

If this suggestion should meet with favor, it should be provided that the primary elections shall be held at a convenient time long enough after the call therefor has been issued to enable all who are interested in the work of the convention to be present before the people and discuss the questions about which we are all concerned, so the people who are interested may act intelligently in the selection of their delegates, thus bringing this selection as nearly as a direct popular vote as is possible under the laws now in force. I have no opinions to conceal from my constituents and there is no point in my public record as to which I am not ready to render them a full account.

Charles Taft's Statement.
Cincinnati, O., March 27.—The following statement was issued over the signature of Charles P. Taft: "We believe that the overwhelming sentiment in Ohio is favorable to Secretary Taft for the presidency, and our efforts are to give this sentiment concrete form, so that it shall be expressed emphatically at the proper time. It is furthermore obvious that Governor Harris is his own logical successor as governor of Ohio, and should have the unanimous support of the party."

Taxation of Railway Property.
Omaha, Neb., March 27.—The passage by the Nebraska legislature of the bill for the taxation of railroad property in cities and villages for local purposes on the same basis on which other property is taxed, marks the end of a fight that began in the legislature of 1901 and has been waged with bitter spirit in every succeeding session. The bill will increase the annual assessment of railroads in Nebraska upwards of \$500,000 on present property, to say nothing of vast improvements now being made. Heretofore railroads have been taxed in Nebraska on their track mileage only, shops, depots and other terminal property almost entirely escaping taxation.

Shot Dead.
Rice Lake, Wis., March 27.—Shot dead, the body of Prokop Plecty, town clerk of the town of Haugen, eight miles north of this place, was found in his burning office and residence by neighbors. Whether it was a case of suicide or murder is not known. The fatal wound was caused by a bullet from a 22-caliber rifle. Plecty was supposed to have considerable money in the house.

PEASANT RISING MAY RESULT IN CIVIL WAR

Vienna, March 27.—The rising of the peasants in Roumania is assuming the proportions of civil war. The movement is directed not only against the Jews, but also against the Christian landowners. The trouble now extends from one end of Roumania to another, and even the capital city, Bucharest, is in fear of an attack. Reports of sanguinary encounters are received constantly, and each day shows the disorders to be more deep-seated and far-reaching.

There was sanguinary fighting in the streets of Petrescu, when 2,000 peasants led by three students entered the city and sacked and destroyed many buildings, including the palace of Prince Stirbey. In the districts of Teleorman and Vlasieva 23 landed proprietors have been killed and 43 villages have been burned. Probably the most serious engagement occurred at Alexandria, about 50 miles from Bucharest, where 60 men were killed and 300 wounded before the troops succeeded in dispersing the rioters.

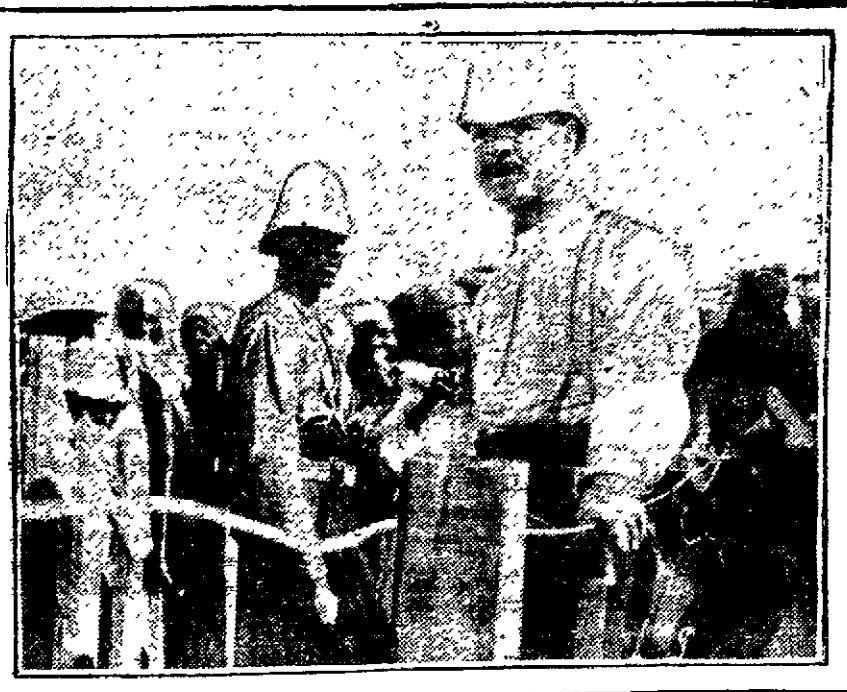

CHINA'S FAMINE INDUCES CANNIBALISM

Shanghai, March 27.—The famine-stricken Chinese have been practicing cannibalism in localities where the distress is most acute. The spread of fever continues and the heavy rains are increasing the misery. Spasmodic riots have occurred, but the outbreaks have not been serious. Famine relief organization is taxed to the utmost in supervising the distribution of relief and in managing the relief works. The committee is appealing for more volunteer helpers. Large orders for grain have been placed in America, Australia and Manchuria.

NEGROES CLASH WITH WHITES IN THE SOUTH

Muskogee, I. T., March 27.—As a result of a fight between members of an organization of negroes known as the United Socialists on one side and city and government officers on the other, John Coffield, a white police officer, was shot through the body just above the heart and will die; Guy Fisher, white, a clerk in a wholesale grocery establishment, was shot through the shoulder; Sam and Elbert Barker and a man named Scott, all negroes, are dead; two other negroes were badly wounded and six negroes are in jail. The United Socialists are established in many Indian Territory towns, and one of their claims is that the United States authorities have no jurisdiction over its members. The leader of the organization, William Wright, a negro preacher, is among those arrested. The fight was precipitated when one of the Barkers resisted arrest.

REGIMENT OF GIANTS QUARTERED IN JAMAICA.

GIANT SOLDIERS IN JAMAICA.

(Special Advocate Correspondence.)
Kingston, Jamaica, March 27.—Newark policemen think they are some inches, but they ought to see the members of the Royal West Indian regiment who were doing police duty here during the earthquake. Many of these men are three inches above six feet and built like giants. All are negroes, being selected by the British government for this famous corps of Colonial troops. It is more than a fine looking body of men, it is imposing. Every member of it feels pride in every inch from heel to helmet. As they sweep down from their barracks beyond in the hills, twelve hundred strong, towering like Gullivers above

BOTH MEN DEAD AS A RESULT OF A FIGHT

Pittsburg, March 27.—James Jackson and Albert Hinton, two insane negroes at the city home at Marshall, are dead as a result of a scuffle they got into several days ago. It is said one of them jumped into the other and they both clinched. In the struggle they fell to the stone floor and Jackson's skull was fractured. Hinton was so exhausted after the fight that his death resulted in a few hours. The men were suffering from acute dementia and both were considered violent.

ROCKEFELLER GIVES ANOTHER FORTUNE

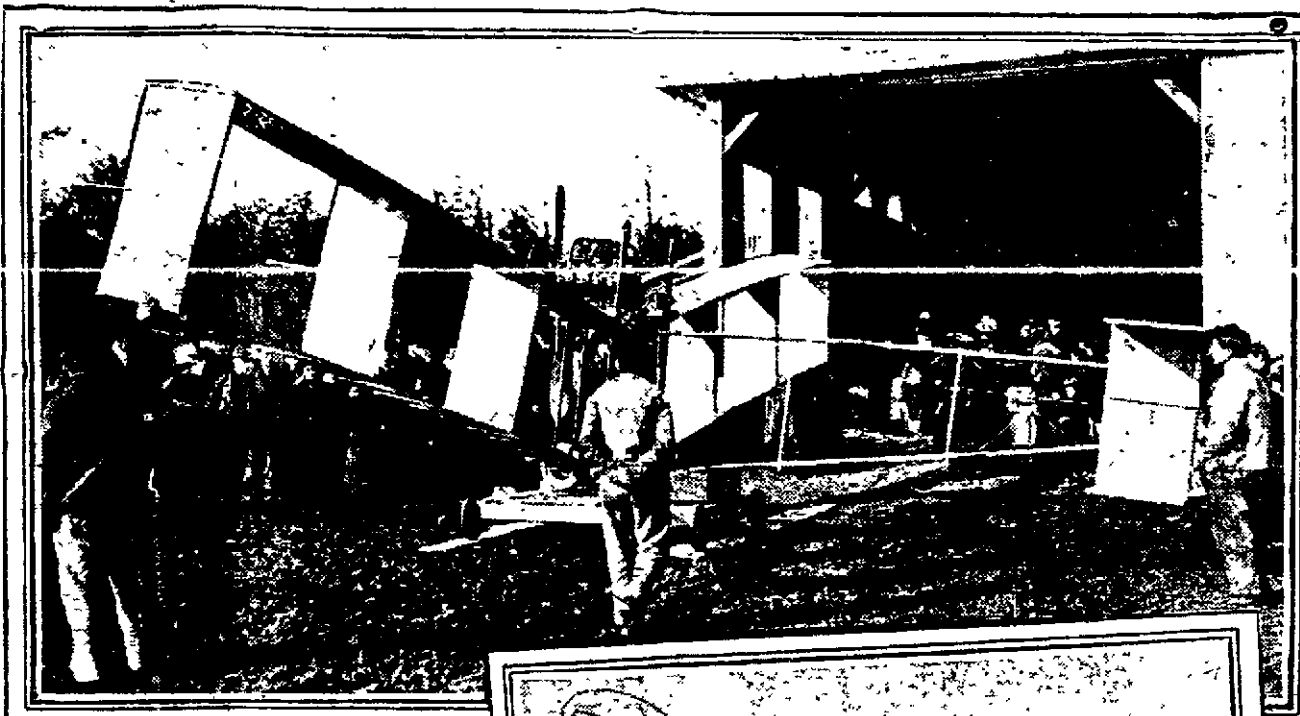

New York, March 27.—The first distribution by the general education board since it received John D. Rockefeller's most recent contribution of \$32,000,000 was made at a meeting of the board, when conditional gifts totaling \$625,000 were made to five educational institutions. The money was divided as follows: Yale university, \$300,000; Princeton university, \$200,000; Bowdoin college, Brunswick, Me., \$50,000; Colorado college, Colorado Springs, \$50,000; Miltaps college, Jackson, Miss., \$25,000. After making these appropriations the board voted to give a total of \$42,500 to colored schools, the names of which were not made public lest the help of the board should tend to discourage gifts to these schools from other sources.

LOVING CUP FOR PRESIDENT CLEVELAND

Princeton, N. J., March 27.—The entire undergraduate body of Princeton university paraded to the home of former President Cleveland and presented him with a loving cup. The cup is of silver, stands more than 18 inches high on an ebony stand, and bears the inscription: "To the Hon. Grover Cleveland. A slight token of the love and esteem of the undergraduates of Princeton university." Mr. Cleveland was touched by the ceremony and made an appropriate response.

Roosevelt's Retort.
Washington, March 27.—Senator Beveridge introduced to President Roosevelt, Dr. Sol C. Dickey, president of the technical institute, and Dr. R. M. Russell of Westminster college of Indianapolis, who asked the president if he would not make a speech there before the trade convention to meet in the technical institute May 29, 30 and 31. The president is to speak at the Lincoln monument unveiling on May 30 and will consider the question of making a second speech. One of the callers told the president that the technical institute was "where they turn swords into plowshares." "Yes, but if the time ever comes they want to know how to turn the plowshares into swords," was the quick response of the president.

Nearly All Week—Drs. Wolfkin
and Francis Coming.

Granville, O., March 27.—An important and interesting gathering is to be held at Denison university, beginning Monday noon, April 1, and continuing until April 4. The program is appended. It was arranged to have the day programs, which are especially for the ministry, held in Cleveland Hall, but on account of the great general interest in hearing men of national reputation like Drs. Wolfkin and Francis, the sessions of Tuesday and Wednesday afternoons will be transferred to Recital Hall near by, where the fascinating illustrated lecture of Dr. E. J. Banks will be given on Monday evening. The sessions on Tuesday and Wednesday evenings will be held in the Baptist church. On Thursday morning there will be a university session. Dr. C. J. Herriek, who goes next year to the chair of Neurology in the University of Chicago, will give at 9 a. m. an illustrated lecture on "The Localization of Mental Functions in the Brain." Dr. Colwell will give in his lecture room during the forenoon views of the famous cathedrals of Europe; Science Hall, just being completed in equipment, will be on exhibition, and at 10:30 the faculty of the Conservatory will give a recital in Recital Hall. During the conference the following will be the program:

SALVADOR NOW SEEKS PEACE

Requests Mexico to Stop the War in
Central America.

NOTE WIRED TO WASHINGTON

President Diaz Instructs Minister Creel to Join the American Government in a Demand For the Cessation of Hostilities—Salvador an Active Ally of Honduras.

City of Mexico, March 27.—Mexico has been at last requested to intervene and use her best efforts to bring about peace in Central America. The request came from the republic of Salvador, and was made to President Diaz by Dr. Baltazar Estupinian, the minister to Mexico from Salvador. Minister Estupinian received a telegram from his government saying Salvador was withdrawing all her troops from Honduras territory and was eager for peace.

In the message the Salvadoran government asked Dr. Estupinian to use his best efforts to cause the government of Mexico to take a firm stand for peace. As soon as Dr. Estupinian read the message he drove to the national palace and was granted an interview with President Diaz. What transpired is not known, but as a result of the conference a message was immediately sent to Ambassador Creel in Washington by the president. The contents of this dispatch were not made public, but it is stated on good authority that President Diaz has instructed Mr. Creel to join the American government in a demand for the cessation of hostilities.

Dr. Estupinian has just been succeeded as minister to Mexico from Salvador by Senor Manuel Delgado. The retiring official will leave for Central America next Saturday. Those here who are well informed on Central American affairs believe that this move is the beginning of the end. Salvador has been an active ally of Honduras and in requesting Mexico to step in and end the war it is thought she has wished to let the world know that hereafter Honduras was to be left to her fate.

CHICAGO MEATS WILL BE BOUGHT BY GREAT BRITAIN

Ban Removed From American Food
Products by the British
War Office.

Chicago, March 27.—The ban on Chicago canned meat as a food for the British army has been removed by the war office. This information is contained in a reply sent to an unofficial inquiry from Washington. This reply is signed by R. H. Brade, assistant secretary of the war office, and says: "Referring to the reports of the officer recently sent on inspection duty to Chicago, I am commanded by the army to acquaint you that although such reports are of a confidential nature and can not therefore be communicated to the public, they have been satisfactory. I am to add that no bias exists on the part of the war department against Chicago meat so long as its manufacture is properly supervised."

France and Morocco.

Paris, March 27.—France does not expect any opposition upon the part of any power against the course she has mapped out in regard to Morocco. The official view of the situation is as follows: "The question is between France and Morocco. There is not the slightest reason for outside complications. France is not actuated by ulterior motives. The occupation of Oudja is for the purpose of demonstrating to Morocco that she can not flout France with impunity, as heretofore."

Severe Electrical Storm.

Hammond, Ind., March 27.—A severe electrical and wind storm struck this city and vicinity and did considerable damage to outbuildings and trees. In the city proper awnings were twisted to pieces and plateglass windows in the business houses were smashed. A downpour of rain accompanied the storm and many basements were flooded. At Hegewisch, Ill., one man was severely injured and the plant of the Western Steel Car and Foundry company was badly damaged by the wind. Other villages in this vicinity suffered similarly from the storm, and the damage to property will amount to fully \$75,000 in Hammond and the surrounding towns.

Ruef's Trial Postponed.

San Francisco, March 27.—The extortion cases against Abraham Ruef, were called for trial before Judge Duane and on motion of Assistant District Attorney Henry were continued one week.

IRVING WON THE LITERARY CONTEST

WHICH WAS WAGED TUESDAY EVENING IN DOANE ACADEMY.

Between the Society of That Name With the Cicero Contingent at Granville.

Granville, O., March 27.—The annual contest between the Irving and Cicero Literary societies of Doane academy, of Denison college, Granville, was held in the town hall of Tuesday evening. Among all the contests waged by the different literary societies of the college the contest between Irving and Cicero is one of the most interesting. The commodious hall was filled to its utmost capacity at an early hour in the evening. The young ladies were out in force and proved their loyalty by wearing the colors of their favorites. From start to finish the young men kept the audience from going to sleep by vociferously rendering their college yells. Following was the program:

Invocation.
Voca solo, Miss Roderick.
Declamations, "Spartacus to the Envoys in Bithynia," C. Findlay Stratton; Cicero: "One Niche the Highest," Newton H. Carman, Irving.
Essays, "True Friendship," Walter S. Stewart, Irving; "The Ideal Government," Karl Eschman, Cicero.
Music, Cornet solo, Miss Montgomery.
Orations, "Modern Brutalities," Alvin S. Stoner, Irving; "The Supreme Moment," H. C. Gillespie, Cicero.

Music, Vocal solo, Harold Thoms. Debate, Resolved, That the proposed subsidizing of the United States shipping interests is wrong." Affirmative, Edgar Waybright, Cicero. Negative, Charles E. Warner, Irving.
Violin solo, Paul Cleveland.
The various exercises throughout were far above the average.

The judges gave their decision as follows: Declaration, Newton H. Carman, Irving; essay, Karl Eschman, Cicero; oration, Alvin S. Stoner, Irving; debate, negative, Charles E. Warner, Irving.

The decision of the judges gave eight points to Irving and two points to Cicero. Too much credit cannot be given the young men who participated in the contest and to Dr. Hundley, the efficient principal of Doane academy, for the good work done.

MISS HIRSBERG'S RECITAL.

The people of Newark are taking a great interest in the recital to be given by Miss Elsie Hirschberg on April 10, judging from the large number of tickets already engaged. Miss Hirschberg has assisted very generously on various occasions and it is evident that the public desires to encourage her and show its appreciation by assisting her a large patronage at the coming recital.

Y. M. C. A. NOTES

The Y. M. C. A. night school meets regularly every week with splendid interest and attendance on the part of the students. The regularity of the attendance is partially due to the fact that a monthly report of grade and attendance is submitted to the master mechanic of the B. & O. shops when delinquents are compelled to report to the office.
Seventy-two have enrolled in the

school this year. Inquiries come in nearly every day about the school and the indications are that more room will have to be secured for the school work next year.

The class for foreigners had to be given up for the present owing to the failure to secure a room suitable for the purpose. Forty-two men, mostly Hungarian and German, were anxious to learn English. Plans for this class will be made early next year.

It will be necessary to get a room near the B. O. shops for this purpose.

Next Sunday Mr. Harry N. Clarke, of Columbus, will conduct the discussion at the Sunday Club. The subject will be "Who is Responsible for the Social Evil?" There will be a musical program from 3:30 to 4.

NO-PROFANITY TOWN

Westfield, Mass., March 27.—This town, which has become known through its pure food fight, is now attracting attention because of its pure speech campaign. Many prosecutions and convictions in the district court in Westfield for the public use of improper language have followed efforts of citizens to bring about a reform.

The most prominent men in the town have earnestly demanded the rigid enforcement of the improper language law, which prohibits profanity under a penalty of \$20 fine. Now the man who cannot express himself without emphatic terms has learned to lower his voice almost to a whisper. Members of the school board have spoken to pupils on the subject. Parents are administering advice and sometimes the rod to their children.

Metropolitan Life Insurance Co.

(INCORPORATED BY THE STATE OF NEW YORK. STOCK COMPANY.)

JOHN R. HEGEMAN, President

ANOTHER VALUABLE CONCESSION

to Industrial policy-holders. The Company announces that every person insured in the Metropolitan under a Whole Life Industrial policy who is now 75 years of age or over IS RELIEVED OF FURTHER PAYMENT OF WEEKLY PREMIUMS, and a similar concession will be made to all persons now insured under Whole Life policies who will reach age 75 during 1907, as soon as they arrive at that age.

This concession takes effect as of January 1, 1907, and all premiums paid in advance of that date on any policy such AS WE REFER TO WILL BE RETURNED TO THE POLICY-HOLDER. This action of the Company in granting

Free Policies at Age 75

is without precedent in the insurance business, and we believe the Metropolitan Life Insurance Company is the only Company that has granted such a concession. This will cost in increase of reserve and in remission of premiums this year

Over One Million Dollars

To appreciate the generous treatment accorded to its policy-holders by the Metropolitan Life, it must be remembered that already during THIS YEAR it has announced and is paying OVER TWO MILLION OF DOLLARS in voluntary contributions to Industrial policy-holders, over and above all obligations expressed or implied in their policies, by a cash dividend upon all Whole Life Industrial policies over five years old, by mortuary dividends (that is, voluntary additions to the face of the policies when they become claims) applicable to all death claims incurred during the year where policies at the date of death have been in force over five years, and by paying as endowments Whole Life policies on which premiums have been paid for 15 years when insured reaches age 80.

This makes a total of OVER THREE MILLIONS THIS YEAR allowed to Industrial policy-holders, over and above the contract obligations, and OVER THIRTEEN MILLIONS during the past twelve years.

If this announcement of a free policy affects any reader of this advertisement, and if his case has not yet been attended to, we ask him to speak to the agent who collects his premiums and the agent will attend to forwarding the policy to the Home Office, TO BE EXCHANGED, WITHOUT EXPENSE, FOR A FREE POLICY FOR THE FULL AMOUNT CALLED FOR BY THE POLICY SURRENDERED.

INCREASE IN BENEFITS

New Tables with large increases of benefits in Industrial policies have been adopted. The payment of premiums on all new Industrial Life policies will cease at age 75. Reductions have been made in the premiums charged for most of the forms of Ordinary policies.

BUCKEYE PHILOSOPHER

(From the Ohio Magazine.)
Some men who are too proud to carry a bundle seldom go home without a load.

The most classic nose is the one that is kept out of other people's business.

A Kansas man is accused of selling his wife for \$25. And yet some people assert that marriage is a failure.

There is nothing more indicative of one man's contempt for another than when he says of the other fellow that "he means well."

A married woman's late husband gets less consideration than a widow's.

Painting the town red eventually has a more noticeable effect on the artist than on the town.

The man who can't sympathize with his wife on any other ground, ought to do so on the ground that he is her husband.

To show him the door is no way to help a man out.

And now a distinguished scholar says that Eve's apple was a lemon. Perhaps this accounts for the punch that Cain gave Abel.

A "good conversationalist" is often one who takes full advantage of the fact that the other fellow is a good listener.

The young man who believes that disease lingers in a kiss is too slow to catch anything.

THE MOVING HABIT

"Yes, we are going to move to escape house cleaning."

"And so are we. If I must confess it myself, I think it will take the new tenants two weeks to get rid of all the rubbish we are leaving behind."

"The same here. Our house will need a mop and soap from cellar to roof. By the way, where are you going?"

"No. 15 L—street."

"What? Why, that is where we are leaving."

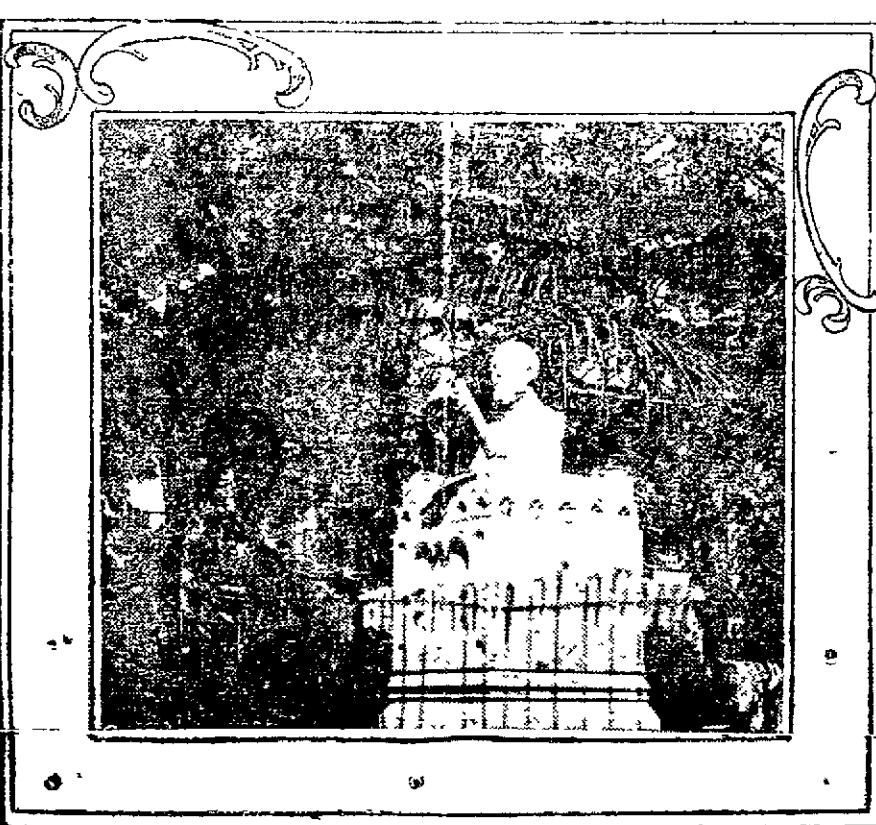

"Well, I declare! Where are you going?"

"No. 11 R—street."

EARTHQUAKE PLAYED PRANKS WITH STATUES.

BUST OF DR. HIDE LEFT STANDING ON ITS BASE AFTER FALL OF INTERVENING PILLAR DURING EARTHQUAKE.

Kingston, Jamaica, March 27—Curious things were done to statues by the recent earthquake. The turning half around of the statue of Queen Victoria has been widely reported, but there were other monuments which stranger experiences befell. One in the same park as that of the Queen was thrown from a towering base and smashed into pieces, save one arm and hand supporting an old-fashioned beaver hat of heroic size. This marble hat lay in a mass of ruins as good as new. In a lower park stood a bust which also escaped destruction in an extraordinary manner. The square solid base, fully six

feet high and slightly less square, bore on its face this inscription:

ERECTED
By the Inhabitants of
KINGSTON
To perpetuate the memory
of
DR. ALEX. FIDDES,
F. R. C. S. C.
Died 25th December, 1869.

Well raised from the base on a marble pillar was a large bust of the doctor. It and the base alone remained intact. The shock knocked the pillar separating them and they came together, the bust coming down so evenly that not a piece was chipped off or crack made. About on the ground lay the pillar in a hundred pieces. A photograph showed the bust resting on the exact center of the base as if originally placed there by the sculptor.

RED FEATHER.

"Cheridah Simpson, the prima donna of "Red Feather," possesses the rare gift known as absolute pitch. So keen is her ear that no matter how many notes are struck in a chord, or what instruments are used, she will call each note correctly, according to international pitch. Many casual acquaintances consider it merely a clever trick, as, in most instances, the

she has a good act. Her trick playing, singing and dancing simultaneously, shows perfect command over the different muscles of the body and the brain which guides them. Her dance at the close of her exhibition is also good. The Freeze Bros. astonished the audience by the versatility of their tricks with tambos and baton. This pair of artists kept 32 tambourines spinning at the same

MISS CHERIDAH SIMPSON IN "RED FEATHER."

only instrument available for a test is a piano and the actual fact that her ear alone, is responsible is only accepted after proof. When only a child of 12 she was a pianist of remarkable ability and was engaged to play a concerto with the Bach Symphony orchestra of Milwaukee. While waiting for her turn she overheard an argument between the double bass as to which was in tune, and volunteered the information that neither of them was, and at her request they tuned to her ear, and when the oboe gave the "A" she was found to be correct. During her season with the "Prince of Pilsen" company the clarinet player invariably came to her dressing room for "A" long before the oboe player, who sounds the notes for the other instruments, arrived in the theater, and always found that he was in perfect tune when the overture was played. The most remarkable part of it is that though Miss Simpson can play the most difficult compositions with great ability and perfect technique, she cannot read music in tempo. The reason for this possession of the gift of absolute pitch has puzzled every musician she has come in contact with; she can tell the tone of every street car gong as it passes, the extreme top notes of the canary songster or the low boom of the deep-tones pipe organ strikes her sensitive ear with the musical vibration of the equivalent tone in the scale. Miss Simpson supported by an excellent cast and chorus appear at the Auditorium Monday, April 1.

LION AND THE MOUSE.

Charles Klein's play, "The Lion and the Mouse," one of the most talked of dramatic attractions of the day, will be presented by Henry B. Harris at the Auditorium Thursday, April 4.

Mr. Klein is the first playwright to perceive the splendid dramatic possibilities centering about the money king. In "Ready Money" Ryder, the dominant figure of "The Lion and the Mouse," he pictures the financial magnate as his associates know him. His brusquerie, his power, his little vanities, his humanizing touch of sentiment. Against this character, he arrays a fine type of American womanhood, justly aroused by the humiliation placed upon her father by this man of money and his coterie of fortune hunters. With fine ingenuity, he introduces the love story of this girl, coupled with the son of her enemy. The complications that thus arise give occasion for some of the most effective and dramatic situations that have been on the stage in recent years. The cast which will present the piece here is identically the same as that which played three months ago in Chicago and twelve weeks in Boston, headed by Gertrude Coghlan and Arthur Byron.

ORPHIUM VAUDEVILLE.

The week's new bill at the Orphium theater opened Monday to big houses at each performance. The entire show is very clever and far surpasses that of last week. First on the program is Lizzie Weller, the "child" wizard of the piano. While it is plain to be seen that Lizzie has seen more summers than falls to the lot of the majority of children, yet

HURTS SALE OF MEDICINES

SIMPLE PRESCRIPTION WHICH RELIEVES EVERY PERSON WHO TRIES IT.

Makes the Kidneys Act and Overcomes Terrible Cases of Rheumatism and Bladder Troubles

To make up enough of the "vegetable treatment" which is claimed to be relieving nearly every sufferer who uses it for backache, kidney complaint, sore weak bladder and rheumatism; get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon and three ounces Compound Syrup of Sarsaparilla. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

Those who have tried it claim that it acts gently but thoroughly on the kidneys, relieving backache and bladder trouble and urinary difficulties almost instantly. Many cases of rheumatism are known to have been relieved within a few days, the pain and swelling diminishing with each dose.

A well known local druggist who is in a position to know, asserts that this prescription, wherever it becomes known, always ruins the sale of the numerous patent medicine rheumatism cures, kidney cures, etc. It is a prescription which the majority of patent medicine manufacturers, and even certain physicians dislike to see published. Few cases, indeed, which will fail to fully yield to its peculiarly soothing and healing influence. Being composed of common every-day vegetable ingredients, which can be gotten from any druggist, it makes up a good, honest and harmless remedy and at small cost.

CIVIC IMPROVEMENT

What will you do this summer to improve your own lot or your city? Some of the city churches would be greatly improved by Boston ivy, which makes beautiful and picturesque so many churches in the old world and in the eastern cities. The

be beautiful, either as a lawn or planted in shrubbery. Boston ivy or our common woodbine would make some of our factories and other buildings attractive. A request has been sent by one of the clubs to the council to appoint a special policeman to see that the sidewalks are kept clean, the alleys etc., free from garbage and papers. The citizens should have pride enough to make this unnecessary.

We ask for the following prizes to be offered this year. This circular has been sent out to many of the clubs and societies and a number have responded with offers of \$5 prizes. We should be glad to have anyone give prizes for these objects or for any other object they may designate.

We hope to show what has been done in Newark this summer by stereopticon pictures. Will you help us by sending us pictures of your house or grounds, taken before and after improvements have been made?

To the end that this naturally beautiful city may be made more attractive; that we may inculcate in the rising generation a love of civic order and cleanliness and an appreciation of our door art, we invite you to join us in the movement for a more beautiful city.

To arouse interest and enthusiasm in this movement and to create a spirit of friendly rivalry—we wish to offer the following prizes, and ask you to be one of the societies or business houses to give some one of these prizes or to offer a prize for any other special object which you prefer.

For purposes of distribution the city is divided into four parts. North, South, East and West. To each district we wish to offer the following prizes:

Prize No. 1—For most attractive premises (not already awarded a prize), \$5 or more.

Prize No. 2—For most attractive flower bed, not less than twenty feet square, first prize \$3, second \$2.

Prize No. 3—For best kept and most artistic lawn—including parking and backyard, first prize \$5, second \$3.

Prize No. 4—For best kept vacant lot (may be cultivated as garden), first prize \$5, second \$2.50.

Prize No. 5—For best kept and most attractive alley, first prize \$5, second \$3.

Prize No. 6—To boys and girls—For best work in helping to keep sidewalks, yards at home and school, clean, reports to be verified by parents and teachers, first prize \$3, second \$2.

Prize No. 7—For best garden, flower or vegetable, planted and cared for by boy or girl, first prize, \$5, second, \$3.

Prize No. 8—For best showing of Boston ivy or other vines planted on business house or factory or to cover unsightly view, first prize \$5, second \$3.

pessimistic side of life very strongly. Manley is one of the most agile contortionists seen on the Orphium stage in many weeks, and his high kicking is a feature in itself. His clever little partner helps him out in many ways, and the team deserves hearty support. DeMonio and Bell, billed as the Great American Travelers, have a very good comedy sketch, but about all the traveling they do is to the Hotel Kissime, where they entertain with light comedy and songs, both of which are new in make up.

Miss Ethel Place sings a touching little child song and sings it very well. The motion pictures, entitled "The Haunted Hotel," are perhaps the most comical yet shown in Newark, and depict the trials of a long haired, long whiskered farmer at a hotel where ghosts roam unmolested. The pictures bring forth such applause as is very seldom accorded a moving picture feature.

BACKACHE

"I wrote you for advice," writes Lelia Hagood, of Sylvia, Tenn., "about my terrible backache and monthly pains in my abdomen and shoulders. I had suffered this way nine years and five doctors had failed to relieve me. On your advice I took Wine of Cardui, which at once relieved my pains and now I am entirely cured. I am sure that Cardui saved my life."

It is a safe and reliable remedy for all female diseases, such as periodical pains, irregularity, dragging down sensations, headache, dizziness, backache, etc.

OBJECT TO BEING CALLED "HUNKIES"

COLONY IN THIS CITY MAKES
COMPLAINT TO MAYOR
MCLEERY.

They Think the Name Implies Their
Guilt Before Evidence is Taken
in Their Cases.

Mayor McCleery has received a new
complaint which is as novel as it is
new. It is from the Hungarian col-
ony in the city and is in the nature
of an appeal to the press of the city.
The Hungarians object to being called
"Hunkies" and they ask to have the
practice stopped.

Roumanians Slavs, Poles, Servians
and numerous other foreigners have
been named under the general head
of "Hunkies."

The foreigners, usually classed un-
der this head, have an erroneous idea
that they are being persecuted in the
courts.

The chief trouble is that as a rule
they fail to get their case properly be-
fore the courts. If they have an in-
telligent interpreter it is an easy
matter. As a rule, however, they
speak but a word or two of English
and when the charge is read to them,
they merely shrug their shoulders and
shake their heads. An effort is made
then to have them understand that
they are charged with assault on
drunk, or disorderly, as the case
might be and they finally shake their
head and say "yes." There is noth-
ing left for the court to do but to as-
sess the fine.

Then if testimony is taken and a
half dozen English speaking people
testify that the man is guilty he is
sentenced, probably not knowing
what is being done. That is not the
fault of the court for there is no
court interpreter provided for in this
city.

In the recent case where a negro
was charged with brutally assaulting
a foreigner, it got abroad in the col-
ony of which the foreigner was a mem-
ber, that he had been fined \$200 while
the colored man was fined but \$100.
As a matter of fact the case has not
been decided or at least had not been
up to Wednesday.

Therefore the whole trouble merely
lies in the fact that many of the so-
called "Hunkies" are not familiar
with the English language and Amer-
ican methods.

Mrs. Margaret Shelby is quite sick
at this writing.

Henry Lynn of O. S. U. came home
to spend the Easter vacation with his
parents.

Fred Shilinger a student of Colum-
bus, was the guest of Mr. and Mrs.
Lynn Sunday.

Joseph Phillips of Brownsville,
was a business visitor here Friday.

Attorney E. P. Walser of Somerset
was called here last week by the ill-
ness and death of his father.

Luther Lynn and wife were New-
ark visitors Monday.

STREET SUIT.

The plainer street suits made in severe tailored style are really much
smarter for every-day street wear than are the fancy costumes, and man-
nish little suits in checked, striped, invisible plaid and plain surface ma-
terials will be much worn this spring by the best dressed women. The illus-
tration shows a favorite model, the lines of which are apt to be becoming
to most figures. The coat is semi-fitted, and entirely without trimming.
The skirt is side plaited, the plaits being quite close together and stitched
down 10 inches or so below the waist line.

CHARITY.

What e'er thy right hand doeth
Let not thy left hand know,
Seems not to be the motto
In this age of want and woe.

For now an act of charity
Is blazoned far and near
Spread broadcast o'er the city,
That all may see and hear.

And the tender heart of childhood,
Is filled with grief and shame,
To see printed in the paper,
Their wayward father's name.

For oft among the rushes
In the mire beneath our feet,
We will find a flower blooming,
With a beauty wonders sweet.

And oft amid environments,
Where there is little love or light,
We will find a young soul striving,
That is spotless, pure and white.

And it shrinks with speechless horror,
From the blasting bitter fame,
That by that printed article,
Has been given to its name.

Stay thy hand, Oh, sister Charity,
Lest thou blight a brave young life,
That is striving for existence,
In this world of want and strife.

MAYOR McCLEERY TALKS OF THE "LID"

In speaking of the rumor regarding
the Sunday lid, Mayor McCleery stated
Tuesday that there was no truth in
the report that he made any conces-
sions.

The mayor stated that the rumor
probably originated from the fact that
several pool rooms connected with
saloons on the outskirts of the city,
had been reported open on Sunday.

Chief Sheridan instructed the offi-
cers to order these places closed and
some of the saloonists interpreted
this order to mean that if the pool
rooms were closed, the saloons could
be operated.

"Why they believed that to be the
case, I can not tell. The police have
the same instructions now that they
have had all along. Those instruc-
tions are to close any saloon found in
operation and arrest the proprietor."

Open Evenings Lady Attendant Both Phones

The bride is carried in the closed palanquin, slung between two camels, and is preceded by musicians on camelback beating tom-toms; in front
of these again there are generally some men on foot, dressed in fantastic costumes and going through various antics—dancing and swordplay.
Following the bride is a motley crowd of men and women, some in donkey carts and carriages. The scene is a bit of Suk-en-Nahassin in the lab-
yrinth of old streets behind the Moski.
